If you're not finding the right talent, you may not be looking at the right people. This series makes it easier to find, retain and develop the right employees with the right skills.

In today's competitive employment marketplace, employers need all the tools they can find to identify, attract and keep superior talent.

Participants in this workshop series will achieve these outcomes:

Candidate Sourcing – Explore untapped, high-potential talent pools that can give you a competitive edge in competing for talent.

Job Posting – Learn how to replace the “same old, same old” language and requirements with postings that attract the best candidates.

Screening and Interviewing – Freshen your approach with techniques to ensure the best qualified candidates advance in your process.

All participants will receive useful tools and resources to take with them for use in their organizations. If possible, please bring a copy of a typical job posting that your organization uses.

Parking validation provided for Civic Center Garage on Mason.

For more information about this and other workshops, please call (970) 498-6665 or email business@larimer.org.
