

**FREE**  
Home  
Efficiency  
Assessment!

Offered by the  
**LCYCC Water and Energy Program**

- Services and products are provided at **no cost to you.**
- Crews will install energy efficient products such as compact fluorescent bulbs, programmable thermostats, and low-flow shower heads and faucet aerators.
- Crews will conduct a visual inspection of your refrigerator, water heater, heating/cooling system and home insulation.
- Crews will offer education on efficiency practices intended to lower your energy use and utility bill.
- Energy resources and potential rebates will be discussed.

\* Eligible households shall be determined based upon utilities provider.

*Through our program, we hope to positively impact the local community as well as the environment by promoting water & energy conservation.*
